Other comments

We provide classroom observations without charge to the program as well as an additional weekly consultation to the teachers or individual observation. In addition, when a child is identified as needing MH services, if the parent agrees, we provide direct MH services to that child/family/teacher. We have the capacity to provide additional consultation, training, and direct service if the Head Start program is willing to pay for services.

Other Comments

We have one ECMH Consultant who provides on-site direct services related to social emotional development within classrooms & specific to children identified as having areas on concern on the DECA. ECMH Program Consultant Supervisor observes in classroom as needed or once a year, when possible, to provide input regarding social-emotional functioning within the classroom & specific to individual children who have areas of concerns as identified by the DECA. The ECMH Consultation Program supervisor also provides ECMH treatment within the agency.

Other Comments

Due to budget cuts/grant elimination, The Counseling Center discontinued the ECMH Consultation program in FY 11.

Early Learning Challenge Grant/ Early Childhood Mental Health Consultants

With Ohio's RTT-ELC, ODMH will also fund and deploy Early Childhood Mental Health (ECMH) consultants that will provide professional development training and technical assistance to support the use of new Early Learning and Development Standards for children ages 0 to 5 in the areas of social and emotional development and approaches toward learning, as well as to support the use of assessments and screenings in these areas. Their work will support educators in public districts, child care, and family child care programs.
